FOR WEAK, SOUR, **GASSY STOMACHS**

It's torture to sit down to a well illed dinner table and know that to eat what you want means misery afterwards. Eat ever so little of the forbidden foods and you have to take soda mints, pepsin pills or other artificial digestants to stop the bloating, heart burn, sourness, gas and stomach lump that always follows. But the more of them you take the more you must and soon the pills become a part of your reg-ular diet. You think you can not eat without them, but you can.

There is an old time stomach pre-scription called Mi-o-na Stomach Tablets that acts directly on the stomach itself and not on the food. One or two Mi-o-na tablets after each meal not only prevents all stomach distress but stimulates healthy natural flow of digestive juices, strengthens the muscular walls and makes the stomach strong enough to do its own work and enough to do its own work and that's the only way to stop indigestion. Lee & Osgood and other dealers sell Mi-o-na on a guarantee of quick relief or money back. Get a package of Mi-o-na, keep in handy and watch your stomach illinget out for good.
